# MONEY, STOCKS AND GRAIN

Reading Scare Being Over, Shares Manage to Regain Their Equilibrium.

The Predicted Six-Per-Cent. Money Market Materializes-At Indianapolis Buyers Are Wary, Fearing Lower Prices Soon.

## THE BOND MARKET.

Railroad Issues Largely Traded In, with Reading Business Curtailed.

At New York, yesterday, money on call was firm, ranging from 24 to 6 per cent., the last loan being made at 24, closing offered at 214.

Prime mercantile paper, 5@612 per cent. Sterling exchange was quiet but steady, with actual business in bankers' bills at \$4.86 for sixty days and \$4.87% for demand.

The total sales of stocks were 560,000 shares, including the following: Atchison, 8,300; Chesapeake & Ohio, 4,500; Burlington, 14,000, Chicago Gas, 8,900; Cotton Oil, 3,200; Lackawanna, 11,200; Distilling, 5,800; Erie, 12,000; Louisville & Nashville, 3,300; National Cordage, 7,900; New England, 22,600; Northern Pacific preferred, 15,100; Reading, 233,000; Richmond Terminal, 7,900; Rock Island, 3,800; St. Paul, 29,800; Sugar, 63,200; Union Pacific, 11,600; Western Union, 4,300.

Trading at the Stock Exchange returned to something like its normal condition yesterday, and the dealings were reduced to a little over one-third of what they were Monday. Fluctuations, though still large among the coal stocks and industrials, were scarcely out of the usual line. The Reading in the hands of receivers practically takes it, for at least some time to come, out of the speculative arena, and the forced liquidation being complete the street is no longer airaid of any sharp movement which would disturb values in the general list. As for Reading itself, the opinion seems to be that the receivership was a sharp move to head off the enemies of the management in their attacks, and has been so far completely successful. While the status of the coal trade in general is believed to be rather in danger, and this feeling was reflected in substantial declines in the other coalers, any serious change in the trade is not expected. With the subsidence of the excitement the condition of the exchange market and the future of the money market at this center attracted more attention. The six-per-cent. market for money predicted some time ago seems to have arrived, although there were plenty of loans made, both Monday and yesterday, at low rates. The hardening tendency of money acts to depressex change, and though offerings of commercial bills are still small, bankers' bills is-sued against the late gold shipments have supplied the market to such an extent that rates eased off materially, and it is felt that no more gold will go this week. Trading in stocks was largely professional. The bears made a drive at the industrials, and especially Sugar and Chicago Gas, and although the former made a feeble recovery, it closed 1 per cent. lower, at 123%. There was little disposition shown to do business in the general list, and until the effect of the flurry has passed away a dwindling volume of business is to be expected. The temper of the general list to-day was unusually firm, and many final advances were recorded. After the rally of the afternoon

Railroad bonds were more largely traded in among the general list, while transactions in the Reading issues were materially curtailed. Large amounts changed hands early in the day, however, accompanied by sharp losses, on the theory that the receivership abrogates the necessity of paying interest on them. The firsts, therefore, declined 4 per cent., to 51; the seconds, 14, to 88/2, and the thirds 24, to 39, while the fours displayed considerable strength, rising fractionally in the face of the weakness in the incomes. The loss, however, was nearly recovered

was completed prices were held firm until

the close, which was fairly active at irreg-

ular changes for the day.

Government bonds were dull and steady, and State bonds were the same. Closing

# LOCAL GRAIN AND PRODUCE.

Under Unfavorable Weather Conditions Trade Is Again Dull at Unchanged Values. The heavy snowstorm of yesterday interfered with trade considerably, while in values there were no material changes. The provision market is dull, and prices not as firm in tone as a week ago, although quotably unchanged. With the continued winter-like weather poultry, eggs and everything in the vegetable line rule firm at quotations, and no marked break need be looked for. The steady tone to staple groceries excites some comment. That no changes should have been made in several days is in the nature of a surprise. There was a fair attendance on 'Change,

but the bidding was such as to indicate an indifference on the part of buyers, which means that they fear lower prices. Track bids yesterday ruled as follows: Whear-No. 2 red, 6812c; No. 3 red, 65c; No. 4 red, 55c; rejected, 50c; wagon wheat,

## FIRMER TONE FOR WHEAT

Bearish News Prevailed, but Short Storage Room Drove Prices Upward.

Corn Held Firm with Wheat for a Time, but Heavy Selling Began and the Price Fell Off, Closing Below Monday's Figures.

TRADING AT CHICAGO.

Provisions Slow and Easter, with Pork and Ribs Declining.

CHICAGO, Feb. 21 .- There was a rather firm tone in wheat, to-day, notwithstanding the fact that nearly all the outside news seemed of a bearish nature. The talk of shortage in storage-room led a good many to think that if the crowd were so largely short as many believed, and the clique held so much of the wheat in store, it might be difficult to get enough wheat here to supply the needs of the shorts, thus giving the clique a big advantage. This caused some of the shorts to cover, and as there was less selling pressure the demand caused considerable firmness for a time. Another thing which helped the market was the fact that Boyden, Parker and some other clique brokers were good buyers on many of the weak spots. Cables were easier. The amount on ocean passage was 1,440,000 bushels larger than a week ago, and the weather in the West and Southwest was favorable, with receipts everywhere generous. There was some selling pressure during the last half hour, in which Pardridge was conspicuous, The opening was about the same as yesterday's closing, and, with slight fluctuations, prices were advanced %c for May and %c for July, then eased off 1/2 @ %c, fluctuated slightly, closed at about %c higher for May and unchanged for July, compared with closing figures yesterday.

Corn was easy at the start on heavy local receipts, but became firmer in sympathy with the strength in wheat and the apparent desire of some of the shorts to cover some of their previous sales. Condon and Bartlett-Frazier were moderate buyers, and King and Harlow were also among the more noticeable of the early purchasers. Counselman-Day and the Weare Commission Company were among the most con-spicuous of the sellers. Commission houses reported apathy on the part of the foreigners to purchase good steamer corn at the current values. Fuctuations were within %o range, and the close was 'sciower than last

Oats developed no striking features. Price changes did not vary beyond 40. Final quotations were at about the inside and 18@14c below yesterday's close.

Provisions were slow. The holiday tomorrow tended to restrict business. The market opened rather easy at a decline on all the leading articles and was dull and dragging during a greater portion of the session. Fluctuations in prices were slight compared with last night. Pork is 5c lower, lard about unchanged and ribs off .0214c.

Estimated receipts for to-morrow were; Wheat, 210 cars; corn. 259 cars; oats, 120 cars; hoge, 28,000. The leading futures ranged as follows:

Options.	Op'ning	Highest.	Lowest.	Olosing.

To the Editor of the Indianapolis Journal: The bill now before the Legislaure should be so amended as to empower the board to examine and grade all applicants for license to practice medicine. This should be done on the theory of the examing boards of the navy and army-that a diploma from any college shall count for but one point out of eight or ten. Let the points be: For diploma, one; hygiene, one; therapeutics, one; pathology, one; physiology, one; surgery, one; obstetrics, one; chemistry, one; materia medica, one; physical diagnosis, one;

anatomy, one-total, eleven. Six points out of eleven necessary to icense the practitioner for one year: reected applicants having right to apply for re-examination after three months. Seven points, license for eighteen months: eight points, for two years; nine points, for

three years; ten points, for four years; eleven points, for five years. Medicine, being a progressive group of sciences, requires constant study to keep up with advancements. Therefore, nobody should be licensed to practice for a longer term than five years without re-examination. The board should consist of representative men, in all systems having a reputable medical college, or reputable practitioners in this State. The eclecties and physio-medicals should have members. No system of medicine has a better informed representative than the Physio-medicals of this State have in Dr. T. B. Redding, of New Castle-the accomplished author, teacher and philosopher, as well as physician. The eclectics have representative men, such as Dr. J. N. Boots, of Greenfield. A law constituting a partisan board would be held unconstitutional. A law making "regulars" and "homeopathists" judges of eclectic and physiopathic

materia medica and therapeutics, would be set aside by the courts very properly. There is great need of a sound law for the regulation of medicine in Indiana. The books of our county clerks have many pames of traveling quacks, Indians, cow-boys and wizards, licensed more for the paltry tee than for any reason. Besides. what sort of an examine; can a county clerk be -unless be is also a learned physician? Let the Legislature make laws constituting a fair board and a full board to examine, grade and license accordingly.

H. W. TAYLOR. ANDERSON, Ind., Feb. 20.

The Best Fruit Pays.

The public taste is becoming more critical each year in selecting fruit for consumption. It finds by experience that there is more food value in a good product than in a poor one than is represented by the differ-ence in the price. This fact makes it harder each year for the careless fruit-grower to get a profit out of the business. The most fortunate thing that can happen to the horticultural interest is for the producers of poor fruit to get starved out of the business. They are an incubus to the fruit trade, because the consumer who buys bad fruit once is reluctant to buy again. And these same growers are the men who are always complaining that fruit-growing does not pay, voicing their own experience, of course; but with the effect of keeping other more intelligent men from going into

### Cooked Corn for Hoge. Angola Republican.

the business.

Ham Miller, of Pleasant Lake, has been experimenting on feeding cooked corn to his hoge, and is fully satisfied that it pays. To a bunch of fifty-three hogs he fed eight bushels of shelled corn per day for a few weeks, and then began to cook the corn, and in fifteen days fed only sixty-six bushels, a saving of nearly one-half, and he believes with better results. With pork at 7 cents per pound, the gain in the weight of the hogs paid him \$1 per bushel for the corp.

A saucepan of boiling water put in the oven while baking bread or rolls will, by its steam, keep the crust smooth and ten-
